ABOUT US

Xemplar Insights LLC is an independent software solutions company, with a proven record of successful implementations, impactful results and customer satisfaction. In 2015 we embarked on a journey to develop innovative products using mobile, cloud and data science technologies to enable carriers with digital transformation in the areas of (a) customer engagement, (b) policyholder services, and (c) risk management.

Build using robust architecture and modern development practices, Xemplar products are designed to be scalable, flexible and extensible to suit the needs of our customers based on their business priorities. The products are always evolving with new features, performance improvements being released on a continuous basis.

OUR PARTNERSHIPS

Over the years we have develop a strong and growing network of strategic partners for sales and distribution, as well as offering complementary services to meet individual needs of our customers.
